Train Wreckers in Texas Throw a Passenger Train Off a Bridge Over the Brazos.

Twelve Persons Killed On-the-spot—Many Missing, and Thought to Have Been Drowned.

A Large Number More or Less Badly Wounded—Lynchers Searching for the Wreckers.

## HORRIBLE WORK.

HUNSTED, TEX., Nov. 15.—The most terrible railroad disaster in the history of Texas occurred through the work of miscreants yesterday at Clear Creek, on the Houston & Texas Central Railroad, two miles southeast of this place. The scene of the disaster is known as one of the most dangerous points along the line of the road. The creek, with a channel of fifteen feet in depth, is spanned by a bridge built from an embankment thirty feet high. Until about three months ago there was a tank at the bridge, but petty depredations on freight trains which stopped there caused it to be abandoned. The men who had been engaged as attendants became very angry and made castastrophic threats which the circumstance of the wreck indicate may have been carried out yesterday. Their evident desire was to wreck a freight train and reap a rich harvest from the coils of platinum. They had removed the holdings of the right rail, which on the curve was the higher one, and from the remnants of food and a few tools found at an abandoned camp in the woods it is thought they there awaited their booty. But contrary to their expectations the passenger train consisted of two baggage cars, mail and express, a coach and two sleepers. The locomotive struck the loosened rail and glided onto the bridge, but just as the pressure rested on the extreme end of the rail it uplifted and the baggage car went crashing over the embankment and into the depths of the creek. The remaining cars followed with great velocity, piling fast upon each other, and burying the passengers beneath a mass of debris in the water. The night was ink black. The wild shrieks of the uprooted and mangled passengers were horrifying as the water poured through the windows and gashed rents in the wood-work.

To add to these horrors a store overturned and flames licked the timber-like material that had piled above the surface of the water, cutting off what retreat the imprisoned passengers had. Everybody at once became palsied with fear except Charles Brown, a colored porter, who dipped water and drew it onto the flames in time to get them under control. He then found the train axes and placing them in the hands of strong men holes were cut for egress, and soon escaped to a station preparing for the rescue of the dead and wounded. Some were so severely injured. The mangled bodies were placed alongside railroad tracks and hauled and a special train was ordered to bring them to the sea, and so far as could be learned with the dead and injured.

The following are the latest details: E. F. Davis, a negro, in a voting passenger train to the city of Bay City, Green Bay, Wisconsin, on the 14th, was captured by a unknown contraband and taken to a unknown German hotel where they demand a bill of an unknown amount.

The unclaimed, so far as known, number eight in the boat in the giving every detail of the scene. Some of the wounded were sent to town. All of them were negroes, this said. Forgive, a negro's body was taken to Calais, Vt., Colson was a native of Hawaiian Islands in relatives in America. The body was taken charge of by friends. The body of the unknown woman and children will be held as long as possible for identification. A posse is now in search of the supposed wreckers, if captured lynch law will take its course.

## Let the Good Work Go On.

NEW YORK, Nov. 15.—The Venezuelan Consul, Arthur W. Roulder, stationed in Boston, has returned from Guatemala, and described to a reporter the festivities in that country on the occasion of the meeting of the Presidents of Guatemala, Salvador, and Honduras, at which Venezuela and Costa Rica were also represented by ministers. The political future of all the five governments, Consul Roulder said, will be affected by the meeting. It was proposed that these countries should unite in one Central American Republic, with General Barrios as President, all who participated were in accord on this subject, and it met great favor among the people.

## The Forthcoming Treasury Report.

WASHINGTON, Nov. 15.—Secretary McCulloch is busily engaged in the preparation of his annual report to Congress. It is intimated he will make some important recommendations in regard to the revision of the tariff, on which subject he is understood to have very decided views. In the meantime Assistant Secretary Conant is acting Secretary on all routine matters. The Secretary has requested the Comptroller of the Currency and the Treasurer of the United States to withhold their annual reports from publication until after the meeting of Congress.

## Husband and Wife Commit Suicide.

DETROIT, Mich., Nov. 15.—Several weeks ago John Downey and wife, of Windsor, Ont., being destitute, mutually agreed to drown themselves in the river. The wife did so, but the husband's courage failed him. He was arrested for murder, while his wife's body was found, but was discharged upon the plea that he was coming out. Yesterday Downey fulfilled his death contract by hanging himself. He was fifty-five years old.

## Giant Rates Resumed on Western Freight.

DETROIT, Ia., Nov. 15.—The low rates which have existed on the Milwaukee & St. Paul road from Chicago to Dubuque and St. Paul were withdrawn yesterday and the old rates restored because of the close of navigation on the Mississippi. The cut rates were twenty and ten cents per hundred respectively, and the old rates fifty and thirty-three cents.

## Did Not Live to Wear His Honors.

GRANTVILLE, Pa., Nov. 15.—William A. Duncan, who was just re-elected to Congress in the Nineteenth District as a Democrat, died at his residence yesterday morning. His death was due to consumption.

## FRIDAY'S COUNT.

NEW YORK, Nov. 15.—All the counties in this State have sent in their official returns excepting New York, Erie and Monroe. If there is no change in the pluralities of these three counties from what was reported by their County Clerks just before the canvass of their returns began, Cleveland's plurality in the State will be 1,268. The fifty-seven counties which have reported show gains for Cleveland of 27, and losses for Blaine of 14. The canvass in New York County for the six districts already reported is as follows: Cleveland's gains, 123; Cleveland's losses, 180; Blaine's gains, 79; Blaine's losses, 61; net gain for Blaine, 18. This does not include the differences already noted in the incomplete canvass of the First and the Seventh Assembly Districts, nor are the changes in New York County included in the statement of the vote, which puts Cleveland's plurality at 1,268.

The Fourth Precinct of the First Election District of the city, which was sent back to the inspectors Thursday for correction in its form, was counted election night as having given 44 for Blaine, 108 for Cleveland and one for Butler. The Sixth, Nineteenth and Twenty-sixth Precincts of the Seventh Assembly District, which were similarly returned for correction, gave, according to the first figures reported, Blaine, 408; Cleveland, 733; Butler, 6. If these figures are not changed, the First District will show a gain of 9 for Blaine over the figures of November 3 and a loss for Cleveland of 40. The Seventh District will show a gain for Blaine of 215 and a gain for Cleveland of 94. It is claimed that the canvass of the first four in these two districts was incorrect, and that the final canvass will show little or no gain for either side.

The official vote of Kings County announced last evening gives Cleveland 69,288; Blaine 53,512; Butler, 2,242; St. John, 1,426.

The total vote of New York County, with which the comparisons of the Associated Press are now being made as the canvass progresses, is that furnished by the City Press Bureau on November 3. It gave the following figures: Cleveland, 133,080; Blaine, 69,847; Butler, 3,343; St. John, 979. Cleveland's plurality, 43,233. There are twenty-four Assembly Districts in New York County.

NEW YORK, Nov. 15.—The Tribune table gives Blaine 57,734 plurality in the counties of the State outside of New York and Kings. In the latter county it says, the Democrats claim 58,957 plurality for Cleveland. The losses thus far of the canvass of the above two counties are said to reduce Cleveland's plurality to 58,583, still giving Cleveland a plurality in the State of 584.

CHICAGO, Nov. 15.—The following headlines from this morning's Tribune show the opinion that journal holds as to the outcome of the national canvass in New York.

The Tribune has since the election been most persistent in its claims that Blaine was elected:

Done Up!—Almost the Last Chance of Blaine's Election Now Passed.—All but Three More than Half the Districts of New York City Have Been Canvassed—and Cleveland Is Still Six Ahead.—The Demon of Bull Luck Has Finally Won the Day.—Garfield a Gravely Sick Statesman of the Age Probably Defeated by a Functional and Silly Side Issue.

INDIANAPOLIS, Nov. 15.—The official returns from all the counties of the State were received at the office of the Secretary of State yesterday. The vote on Governor was, Gray, Democratic, 25,140; Calkins, Republican, 23,748; Leonard, Greenbacker, 2,283; Dwyer, 1,000; Johnson, 3,292; Gray's plurality, 7,392. For Judge of the Supreme Court only two candidates ran. Mitchell, Democrat, received 246,681, and Hammond, Republican present incumbent, 242,916. On the straight Democratic ticket Korn, for Reporter of the Supreme Court, received the highest vote—248,474. Mitchell, for Secretary of State, led the Republican ticket, receiving 238,033 votes. He was the only candidate who kept off the stump during the campaign. Shiel, for Treasurer of State, received the greatest votes—233,934.

ATLANTA, Ga., Nov. 15.—The Georgia Journal published the vote of the State at the late Presidential election, excepting ten small towns and plantations not yet returned to the office of the Secretary of State, showing the following result: Blaine, 71,716; Cleveland, 51,657; Butler, 3,994; St. John, 2,143. Blaine's plurality, 20,292; majority, 13,923. In 1880 Garfield's plurality was 8,990 and his majority 4,875. Blaine carries every county in the State, while in 1880 four counties gave majorities against Garfield.

WENDELL, Mass., Nov. 15.—Some time Thursday night Butler's effigy was hung in Brown's Square here. It is not known who were concerned in the matter, and the first intimation the general public had of the affair was the sight of the effigy yesterday morning.

WASHINGTON, Nov. 15.—One of President Arthur's most intimate friends said yesterday that he has information which convinces him that the President can readily secure the support of his party friends in the New York Legislature if he desires to succeed Mr. Lapham in the Senate. This gentleman scouted the idea that Conkling has any possible chance of again entering the Senate. He says Conkling has no desire to return to public life, and he is certain that any attempt to bring about a fusion of the stalwart element and the Democrats in the Legislature in Connecticut's interest would result in nothing. Arthur, he thinks, will make a candidate upon whom all elements can unite, and if he would accept the office he would certainly fit it with credit to the State. He was not in a position to say what the President's course would be in the matter, as he had not lately consulted him, but he thought from previous conversations that the President is not desirous of retirement from public life. He added that he could say with confidence that in 1888 Chester A. Arthur would certainly be a candidate for the Republican Presidential nomination.

MADISON, Wis., Nov. 15.—At a meeting of prominent Prohibitionists last evening a club was formed, the purpose of bringing the cause of temperance into the campaign. S. D. Hastings, a young candidate for Governor, was chosen President. These clubs are to be formed in every town in the State, and will be furnished funds to give thorough organization to that party. All attempts at compromise with other parties are to be rejected. St. John is to attempt a similar movement in the United States by means of funds set aside for that purpose.

Niantic is the banner democratic precinct. Bully for Niantic!

CLEVELAND has been elected for ten years and yet not a single fort in the city has been fired upon.

The leading republican organs having admitted defeat, our Game Rooster may be permitted to crow.

The Republican rejoices that Massachusetts and Illinois are still republican by greatly reduced majorities.

The democratic plurality in New York is "not as deep as a well nor as wide as a church door," but it is very satisfactory to the democrats.

That visit of Bro. Mosser to Maine was not pregnant with grand results. Blaine and his visiting statesmen are all entitled to passes up Salt River.

The prohibition vote worries the republicans, but how about Ben Butler's and Belva's support. They will soon begin to get jaded of the attention being paid to St. John.

We'll bet a new hat against Mosser's chances for a consulship, that the next republican candidate for president will not be noted for the letters he has written.

The republicans now are busily engaged in kicking the bolters out of the party. In a few months they will be around with a pan of salt, trying the boy's plan to catch the birds again.

The republicans now call him "old fool Burchard." He was at least honest in his opinions, however bigoted, and it is cruel to scalp the crowd that was called in to do efficient service.

The Chicago Tribune now admits the election of Cleveland but is worried to know what the democrats will do with the government. Never mind, they will give a good, clean, economical administration.

The fellows who report the "rebel yell" business from Warrensburg, and telegraph it over the country, are overdoing it. Men who were at Warrensburg on the night of the jolification declare that the man lies who says a democrat there yelled for Jeff Davis.

The Macon county republicans who are now cursing themselves red in the face because of the action of the prohibitionists in the national election, should not forget how the grand old party slaughtered Jesse Bendorf for Corcoran, the only real prohibitionist on the ticket.

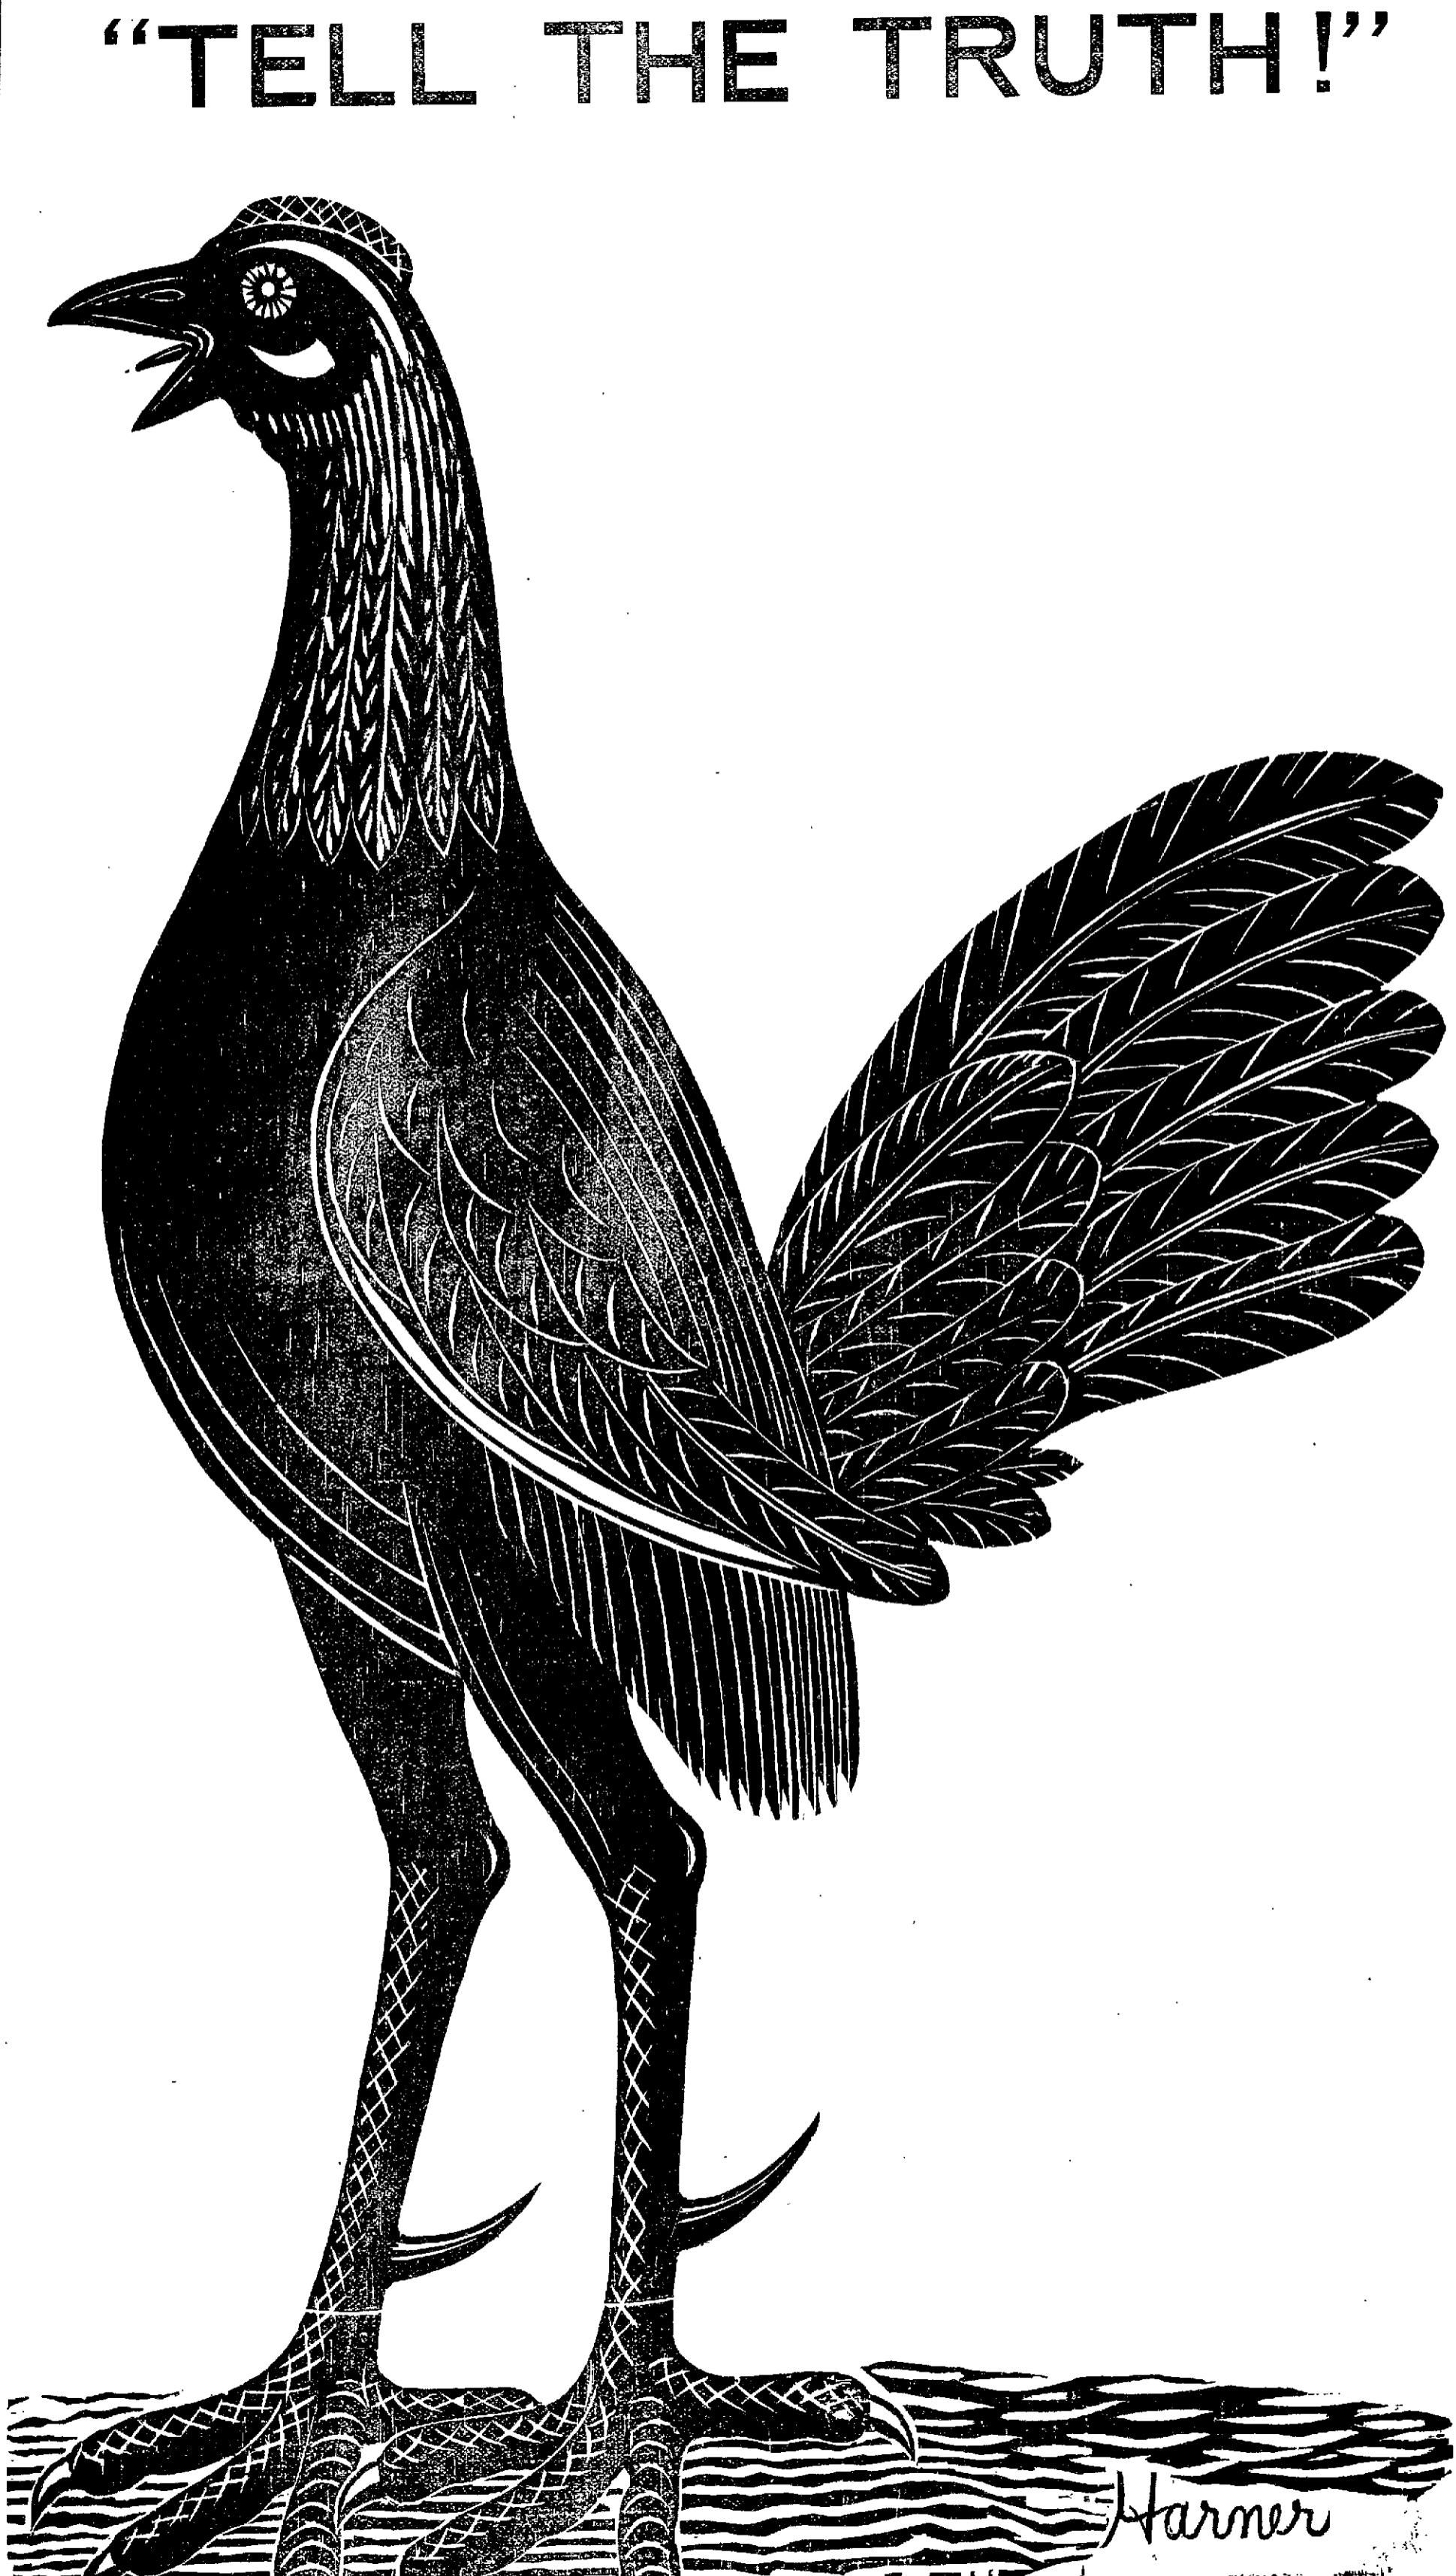

We learn of a rather intelligent Scotch girl in this city, who is in sore distress on account of the action of the democrats that are to follow democratic success. She says she will go back to Scotland to escape them. We pity the political bigots who have been teaching her such stuff.

The action of the republican mob in front of our office on the night of the jamboree when they thought Blaine was elected, was a compliment to us. It showed that the Review had been felt in the last campaign. Come again, but remember that under democratic administration men are expected to "tell the truth," and "behave themselves."

Some of our republican friends are very much outraged by the reception of Salt River "passes," and wonder how any one at this serious point in our country's affairs, can try to stir up party passions. The democrats have been doing the Salt River route for twenty-four years, and feel rather glad to let the other fellows try it. Prohibitionists are expected to pay full fare.

The school teachers that have lately been devoting time to discussing the merits of presidential candidates from the desk, can now devote themselves to their proper work. A teacher that will drag either side of partisan politics into the school is not a proper person to teach. Our schools should be strictly non-partisan.

Some of the preachers think the papers are doing great harm to religion by attacking political preachers for their course in the campaign. These gentlemen forget that as long as they preach the gospel from their pulpits, the press almost unanimously support them, or offer but little criticism. When they go into politics they enter an arena where there is no fear of sacrifice in "saesing back."

The inimitable Pat Rooney is coming. This bit of news will be received with a scream of delight by the inhabitants of the gallery.

Republicans that do not know anything at all about the situation in New York, still hold on. Those that are posted have given up.

We rise to mildly whisper that the compulsory education law is futile, void, no good, a dead letter and inexcusable in Decatur. If there were as much interest in enforcing this law as in other state laws, there would be fewer hoodlums in the streets, growing up to habits of idleness and vice. It should be enforced or repealed.

G. W. Keene, night telegraph operator at Illinoian, died in that town on Friday evening, after an illness of one four weeks, of typhoid fever. He had been very sick, but was recovering, and attempted to resume his duties during the excitement consequent upon the presidential election. This brought about a relapse, which resulted in death at the time stated. He was about twenty-five years of age, and the son of a widowed mother who resides in Pennsylvania, who was informed of his death by telegraph, but was unable to come and attend the funeral. His remains were interred at Illinoian yesterday afternoon.

We rise to mildly whisper that the compulsory education law is futile, void, no good, a dead letter and inexcusable in Decatur. If there were as much interest in enforcing this law as in other state laws, there would be fewer hoodlums in the streets, growing up to habits of idleness and vice. It should be enforced or repealed.

The Animal Industry Bureau Indorsed—  
Permanent Officers Elected—Resolutions Passed.

CHICAGO, Nov. 15.—In the National Convention of Stockmen yesterday a sensation was created by the reading of a letter from Prof. James Law, of Cornell University, wherein the newly created Bureau of Animal Industry was denounced as mismanaged and practically useless. The bureau had employed unprofessional assistants, and so far as the writer could see, had conducted its experiments and investigations in a bungling manner. It had misrepresented the facts regarding the existence of contagious cattle diseases in New York, and failed to accomplish the substantial good on account of the inefficient organization it maintained. Prof. Law left it to be inferred that Commissioner Loring was deserving of censure. He contended that it was an indisputable fact that dealers, importers and breeders were not qualified to direct veterinary legislation or administer veterinary laws. All the States and Territories, he held, should be placed under the supervision of competent veterinarians. Commissioner Loring defended the bureau ably. A motion to extend the thanks of the association to Prof. Law for his letter was laid on the table. A permanent organization of the National Association of Stock Raisers was effected by the election of the following officers:

President, D. W. Smith, Springfield, Ill.; Secretary, Thomas Strizner, Cheyenne, Wyo.; Treasurer, John Clay, Jr., Chicago, Ill.; Executive Committee, P. C. Anderson, President; T. J. Murphy, Vice-President; John G. Goyen, General, N. M. Curtis, Wyoming Territory; Judge Carey, Wyoming Territory; G. W. Simpson, Mason, Texas.

The Committee on Resolutions presented a lengthy report, in which the Bureau of Animal Industry was condemned. The discrimination in freight rates made by the trunk lines between dressed meat and live cattle in favor of the latter was denounced, and it was suggested that unless it was stopped a movement should be begun to secure the passage of a national law regulating inter-State commerce. One clause illustrated the Committee on Legislation to secure, if possible, the enactment of a law under which the grazing lands in the West could be rented on lease at low rate by the cattle men. This clause was referred to the Executive Committee and adopted, but the port committee, A. T. Mahan, voted against it.

New York, Nov. 15.—The health officers at sanitary hospitals here in this city view the approach of the cholera epidemic without alarm, and with full confidence in their ability to battle successfully with the dread scourge when it reaches New York in the spring. That it will do this is with every well-informed sanitarian practically a foregone conclusion. By most it is considered highly probable that, following the old lines of travel, the epidemic will cross the ocean before Christmas and appear in sporadic cases in New York this winter.

WASHINGTON, Nov. 15.—Secretary McCulloch has prepared a circular in relation to the importation of old rags from cholera-infested ports which modifies the existing order on that subject so as to continue the embargo until further notice, and to declare all such and Mediterranean ports to be infested.

An American named Christian Christiansen, from California, died of cholera here yesterday. He was the first American victim.

Washington, Nov. 15.—The National Board of Health has addressed a circular to the Governors of the various States advising them that the presence of Asiatic cholera in epidemic form in Europe is a constant menace to the people of this country, and urging them in view of the imminent danger which threatens the people of the United States to call the attention of their respective Legislatures to the subject and recommend appropriate legislation for providing means whereby the most thorough sanitary service, State and local, may be immediately organized. The circular concluded as follows: "By the prompt action of such measures, we may hope, if not wholly to escape, at least to a great extent, the dread scourge of this dread disease, to be able to less, to limit its ravages to the place where it first makes its appearance."
